**TO WHOM IT MAY CONCERN,**

**RE: Letter of Support for EXCEL Accounting Services**

We have had Excel Accounting Services as our full time bookkeeping service for over 5 years now.

We have found the service and advice that EXCEL provides to us invaluable to our business. After years of trying to manage our book keeping internally, we were not sure how this relationship would play out. We can say with all confidence it was one of the smartest business decisions we ever made both from a trust level and also financially for monies saved on a full time staff member. We not only have a person, we now have an entire office looking after us!

From our payroll, accounts receivable and payable to budgeting / forecasting and making sure all accounts are current and up to date for our year end audits - the service is phenomenal.

We would like to commend Sherry and her staff, especially our designated consultant, Kiela Muirhead, who we feel is like a member of our own staff and a great addition to our team.

Excel takes our business as seriously as their own, which leaves us free to concentrate on the day to day aspects of our business, knowing they are behind us supporting our financial health. The entire staff is always very available to us for consultation, advice and planning at any time.

We would be pleased to recommend EXCEL Accounting Services a to any prospective business or organization,

Sincerely,

David & Michelle Thompson
